# FIXED APPLIANCES WORKSHOP

The BOSS Hybrid Orthodontic Technique (Combining Fixed Appliances with Aligners) Workshop will allow you to do fixed appliances as a supplement to your clear aligner treatments, without needing to do long and expensive CPD programs to learn these skills.

\* Workshop is limited to a maximum of 12 people

Book online to reserve your spot today! <https://digitalorthodonticcollege.com/events>

**The BOSS Hybrid Orthodontic technique workshop will be over 2 days in Sydney and have practical lectures and hands-on workshop for:**

- Fixed orthodontic appliance – philosophies and fundamental biomechanics
- Bracket positioning and bonding techniques (direct and indirect).
- Archwire selection and changes.
- Active and Passive Ligation methods.
- Anchorage preparation - tip back bends, lacebacks, etc.
- Fabrication of simple archwire springs such as the molar uprighting spring, intrusion spring.
- Case selection and digital software planning for hybrid fixed-aligner workflows.

**All workshop materials and typodonts will be provided.**

**6th-7th March 2026 (Friday - Saturday)  
9am - 5pm**

**TBA - Sydney NSW 2000, Australia**

**AUD \$4900 + GST before early bird ends 31/01/2026**

**AUD \$5400 + GST from 01/02/2026**

Payment plan is available to pay for this course fee from 3-12 months via Procureit if you have an ABN/NZBN (interest charge applies).
